Dear Homeowner,

One thing I've learned in my nearly four decades of consumer investigating, is that you need a vetted and reliable network of local service providers. I know this because I spent the first half of my career as an investigative news reporter, and practically every night, I would go on the air and tell people how someone got burned or worse, got intentionally cheated because they simply failed to do their homework.

In 2008, I spent the year creating a seven-point investigative process that would eliminate 99.9% of the mistakes that led to bad outcomes. In this guidebook, you'll only find companies that have "findable" offices, carry liability insurance, price fairly, maintain great reputations, provide equitable contracts and most importantly, honor my *$10,000 Make It Right Guarantee™*. You see, most companies offer warranties, but guess who's in charge if something goes wrong? They are! With my *$10,000 Make It Right Guarantee™*, every company in this handbook (and on my website TrustDALE.com), has agreed in writing, to put me in charge of Making It Right – for you! Think about that... it takes a pretty confident company to put a true third party in charge of outcomes.

Most homeowners who use this handbook never have a problem and return to use my researched recommendations again and again. The reason is simple. We all want to be part of a community where trust is a cornerstone, a community where value driven companies sell great products for a fair profit, and value seeking consumers buy great products at fair prices.

I invite you to call on these companies with confidence, and be sure to collect several estimates, because you almost always ensure you're getting the best price when companies know they're competing for your business. One more thing; unlike other printed and online resources, we never require your personal information. Another major reason you can TrustDALE!

Customer Reviews:
"Keith is friendly and pleasant and always does a great job, both inside and out. He is always on time and I really appreciate that, too. He sends a text the day before my appointment to remind me and that is very helpful. Could not be more pleased." ~ Diane M.

"Unparalleled customer service! I had an issue with one of two A/C units, not the one Zone Home Solutions had installed two years ago and called to get an appointment to have a tech come out to fix. After speaking to the answering service to set that appointment, no more than 15 minutes after the OWNER himself, Jason DeSantis, calls to ask questions about what was or was not happening with my system. I thought maybe he would tell me he'd send someone next business day. No, Jason said he himself would be to my home within 20 minutes, ON A SUNDAY! Jason came in less than 20 and spent approx. 40 minutes diagnosing the problem. Which ended up being a simple power switch. I did a lot of research on A/C companies before going with Zone and now I am absolutely, positively certain I made the right choice. You cannot go wrong with these good folks!" ~ Susan D.

Thanks, Mikey and crew." ~Lavette E.

Customer Reviews:
"I was pleased with how quickly everything went. From my first contact until they were done was about two weeks and that was mostly delayed because I needed some electrical work done. The cost was less than I had thought it would be. It is too soon to know if it has solved all of my basement flooding issues, but I am convinced this is a good solution and the work was done well." ~ Adam S.

"Excellent service. We had water in the basement from an unknown source. Allan was knowledgeable and thorough. He correctly diagnosed the issue - which turned out to be easy to rectify - saving us from other costlier solutions. We would strongly recommend his services." ~ Amanda C.

"ESOG waterproofed my combination basement/crawl space about two and a half years ago. The basement's been completely dry ever since, despite many downpours. Before this project, I had to clean up water almost every time we had rain. The project involved temporarily moving shelves, stairs and my hot water heater. The crew went out of their way to accommodate me during the work and moved everything back with no issues. I prefer to wait to review a job like this until after seeing whether it works. I am very pleased with the results and recommend the company highly." ~ Sharon S.

"I recently used ESOG to repair a water leak on exterior basement wall. I was given a detailed explanation of the repair and an estimate. After accepting; the ESOG Team came out on the Day /Time quoted, reviewed the details with me and successfully Repaired and Cleaned Up.
Very Satisfied with the entire process and results; went exactly as discussed, all Staff were very friendly and respectful, most importantly there was NO Upsell or Add-ons.
Highly recommend ESOG." ~ Dale D.

Office Hours: Monday – Friday 8:00am-5:00pm
Company Information: Although you may rarely pay it a visit, and although it's hidden underneath your floorboards, the crawlspace in your home isn't something that should be considered "out of sight, out of mind." Crawlspaces, if not maintained properly, can become breeding grounds for snakes, insects, and rodents. Likewise, excess moisture in your crawlspace can prove hospitable to dangerous mold that can eat away at your home's foundation, as well as infiltrate the air inside your home and cause allergy and other health problems. To solve these issues, Engineered Solutions of Georgia provides expert crawlspace encapsulation services that can seal off the crawl space in your Georgia home.

If you notice musty odors in the air inside your home, notice excess moisture in your crawlspace, or can't seem to keep your heating and cooling bills at a reasonable level, a crawlspace encapsulation may help. This service blocks out unwanted pests and excess moisture, is an effective form of crawlspace waterproofing, and ensures clean, odor-free air in the rest of your home and preserves a solid foundation for years to come.

Customer Reviews:
"We needed crawl space work done to sell our home. ESOG not only gave us a fair quote, but stayed in constant contact with us every step of the way. They understood the tight timeline of the project and ultimately, the real estate transaction was successful. We tried other foundation companies in the past who were less than stellar and wished we had found ESOG sooner. We highly recommend this company."
~ Gabe M.

"Very happy with the recent work on my crawl space by ESOG. They were reliable and took the time to do the job right and left my basement cleaner than when they arrived. My crawl space has never been so dry and my basement has lost the damp musty smell from before. Questions and any issues were answered and resolved immediately. Big shout out to Patrick and Eric and his crew!" ~ Paul M.

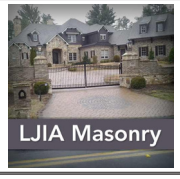

"Very happy with the work and the professionalism of the teams that worked on my projects from ESOG. From start to finish I felt I had their attention and interest in completing the work which is very reassuring when having work done on your home." ~ Derrick S.

The design on PDF file was spot on. The Artisan Custom Closet team was very organized and helped us every step of the way with all the questions we had. The installer was super nice on time and fast. We were so impressed that Artisan Custom Closet is now installing closets in our Laundry room turning it into my dream sewing, craft and of course laundry room this Friday. I can't wait. "I had a wood deck replaced and expanded with composite material, and also had a staircase installed connecting the deck to the patio underneath. The deck included a water removal system, making the space under the deck usable during inclement weather. It's been almost a year since I've had this deck installed with America's Best Choice. I am absolutely thrilled with the quality, service, and craftsmanship that went into this project. The initial designs were presented very clearly and really helped to visualize how the deck would look. R~, the project manager, was amazing to work with. Customer Reviews:
"Superior Plumbing provides excellent service. When I called, the receptionist listened thoroughly to my issue. I was contacted in the morning of the service to let me know they could send someone out before the original appointment time. The plumber represented Superior Plumbing well. He knew exactly how to address my problem. He followed CDC safety guidelines, was very courteous, demonstrated a very good understanding of how to correct the problem, knowledgeable about the type of tools to use to unclog the drainage issue. I highly recommend Superior Plumbing Services." ~ L. Yvonne W.

"Had an insurance claims adjuster assess that the leak from my main floor kitchen ceiling was most likely coming from a leak in the upstairs water supply lines running under the floorboard. I engaged Superior Plumbing after watching a raving review by local consumer advocate Trust Dale. After chatting online with the Superior Plumbing, setting up dispatch, I was advised of certified plumber's eta of 45mins. Here I thought 1-2 days at minimum. The cool thing after hanging up with the tech I immediately received a text with a link to the bio, photo and current customer service rating of the plumber who would be servicing my work order. Plumber promptly arrived 45mins later. He introduced himself, quickly assessed the problem, and explained next steps including pipe leak detection costs and isolated my problem to a slow, almost undetectable leak coming from upstairs toilet down the drainpipe and eventually the ceiling below. He repaired toilet drainpipe, cleaned upstairs and downstairs in a jiffy's time. He even advised of an excessive water pressure condition at my water main in the basement! The plumber was a consummate professional throughout! Great Job Superior! You lived up to the Trust Dale high billing!!" ~ Jeffrey R.

SuperiorPRO has you covered for all your entry door needs.

Customer Reviews:
"So in the summer of 2018 I had Superior Pro install James Hardy ColorPlus siding, new gutters, and several new doors. They communicated well, and did a very good job. Unfortunately several months after the installation, I began noticing small white/grayish spots, appearing all over my siding, where the finishing nails were placed in the siding from the calking used. Life was very busy, I traveled a lot and I failed to contact SuperiorPro until just last month after I retired, and began to look at the imperfections every day. SuperiorPro sent out Project Manager Ty Williamson, who I can't say enough great things about. After spending a few minutes looking at the problem, he told me the problem would be taken care of either by touching up the spots, or if that didn't work by painting the entire home. Well this weekend, they came out, pressure washed the entire house, and then did the painting. They were able to spot paint and you can't tell any difference nor spot where the problem areas were. In many cases, companies try and use every excuse in the book to weasel out of taking care of a problem, and by waiting so long to report the problem, I have them a perfect excuse to do just that. I highly recommend using this company for any of your home improvement needs." ~ J.T Downing

"Excellent service and project management. No surprise charges with SuperiorPro. Great work, on time as requested. I refer my neighbors to them all the time." ~ Denise B.

Customer Reviews:
"Replaced my windows, siding, and a fence with America's Best Choice - everything worked out very well. Salesperson Ryan was very helpful and never pushy, the work was priced right and done exactly to my specifications. Communication was very good throughout the entire process." ~ John P.

"We have had the BEST experience with America's Best Choice. The customer service and attention to detail of this company is unmatched. Not only did we initially purchase new windows with ABC, but ended up basically remodeling our entire exterior- new siding, paint, gutters, and exterior doors- this company does it all and ensures that the job is perfect for your home. Every interaction we have had with ABC employees has been a positive one, from our first meeting with Roger to completing the project with Marty and Ronaldo. We are so happy with our "new" home from ABC! Highly recommend." ~ Kat D.

"They made it look like such an easy job though it was not. Trust me. Totally flawless experience from beginning to end. No need to shop around once you get a quote from them." ~ Siya B.

I received 2 other quotes but After Five Floors was cheaper and also had great reviews. I will be using them again." ~ Michelle B.

"Landry was so impressive to deal with. His friendly mannerism and responsiveness, along with a competitive quote is why I chose After Five Floors. What I was quoted for the work was what I paid. I had a quick time frame in which I wanted to get the work accomplished and they met my schedule. The tile setter was very friendly and easy to work with. "We had a floating garage with open space underneath the garage and the driveway. William and Rusty came out and did a great job preparing the area for the poly fill and raising the house with the posts they installed. William came to check on the cracks while lifting the house a little at a time. He took great care to make this work precise. Then Gene and Brian filled it in one day and checked everything throughout the fill. William came back to clean up and fill a remaining space, which turned out great. We were very satisfied with the quality and caliber of the AquaGuard company employees. Everyone was incredibly helpful and explained what was happening every step of the way." ~ Theresa P.

"Cody & Connor did a great job. They were on time, explained the process and made sure they answered all my questions. They cleaned up when finished and made sure we were happy with the results before they left." ~ Gary A.

Customer Reviews:
"No homeowner ever wants to experience these types of issues with their biggest investments. But I felt confident in my decision to involve ESOG in the resolution of our specific concerns. ESOG made the entire process easy and reassuring – start to finish. ESOG had me scheduled for an initial inspection & consultation following completion of their web site contact form within the same week – very impressive. Jeff arrived on time and provided a very thorough assessment of our concerns (porch & driveway) and laid out all possible solutions and processes involved (pressure grouting, foundation support, and poly lift). Taylor & crew arrived on time each day, were always professional and kept things tidy. Taylor kept us & Jeff updated on progress as well as the variety of curve balls thrown our way during each process so that necessary adjustments were explained, understood, and implemented throughout the process. I would recommend ESOG to anyone who finds themselves in the same situation." ~ Ron B.

"Engineered Solutions was there when I needed my the foundation on my sunroom stabilized. The price was fair and very reasonable. I recommend anyone who's having foundation issue's to contact them." ~ Nal N.

"We used ESOG to help with stabilization and restructure of our foundation. Their Representative came out and thoroughly inspected our crawl space and presented a plan to help with our current problems and prevent future issues. Their crew was very courteous and kept the jobsite clean. I highly recommend ESOG."
~ Brandon G.

"ESOG helped stabilize my foundation and repair my garage slab. Now I can focus actually moving into my new home instead of worrying. Thanks guys so much! Their staff was incredibly polite, professional, and fast!"

Customer Reviews:
"The Forman and his Crew were professional, polite and respectful. The Crew showed up on time each day. The job was completed on time without any problems. We would highly recommend Everdry."
~ Barry J.

"Everdry came to my home and did a FREE evaluation twice. They were thorough, complete, professional and answered all my questions - usually twice. When the workmen came out to do the job, the Foreman, Cody, was the BEST! Very polite, professional, personable and knowledgeable. He listened carefully and answered my questions - sometimes twice; the crew was VERY careful about covering the rather large model railroad layout in the basement as well as other tools and equipment; they were VERY careful about keeping the dust out of the rest of the house and made sure I could see the process as they were working - very patient when I went downstairs to watch what was going on. The entire crew was polite, friendly and professional and knowledgeable. They also swept up the site daily and cleaned up when they left. Cody explained everything and showed me the job site when they were done just to be certain I was satisfied with their work and to answer more any more questions I had. Everdry's warranty was one of the factors in my decision to hire them. I recommend them highly."
~ Suzanne S.

"I have been a Everdry Customer since the early 1990's. I've been completely satisfied. My home was built in the 1880-1890's, so the basement was really an old cellar. Additionally, it was a Rock Foundation. Everdry turned my cellar into a usable Basement. And it has been dry ever since. This was the best investment we have ever made on our home." ~ Tom B.

Customer Reviews:
"The technician they sent to my home is AWESOME! He has visited my home twice and both times he has been so pleasant. The first time he installed a new garage door opener for my family. It is soooo quiet. During the visit, he made some recommendations to ensure the opener and door would work for many more years. He showed me how to work the controls and explained about the use of the app for door opener. On his second visit, he made some repairs to my garage door to make it function smoother and more quieter than it already was. I would definitely recommend this company to my friends and family. FYI: I found them on Trust Dale. So, shout out to Trust Dale for recommending them!" ~ A. Johnson

"First Class Service. From the super nice young lady who answered the phone to the ahead-of-schedule (it's a good thing) installers, the customer service was polite, friendly, and informative. Their technicians were like old friends coming over to help out. They gave great explanations and information. Best customer service we've had in a long time. Restores your faith, and your garage door, thanks." ~ A. Smith

"Great experience start to finish! Everyone at Guardian is a top notch professional. Installers showed up early, got going, explained the process, cleaned up perfectly. Any questions were quickly resolved. My garage has been transformed. Go with Guardian!" ~ Tom B.

"The paint on our garage floor was peeling and rather than repaint I wanted a permanent solution. I thought epoxy was the way to go, but Jeremy instructed on how the system Guardian Garage Floors uses is superior. Everything was great from customer service to installation. The installers were prompt, professional, and courteous. Incredibly our 3-car garage was transformed in less than a day! It's expensive but I consider it a lifelong investment for my home." ~ Michelle H.

"Keith is friendly and pleasant and always does a great job, both inside and out. He is always on time and I really appreciate that, too. He sends a text the day before my appointment to remind me and that is very helpful. Could not be more pleased." ~ Diane M.

"Unparalleled customer service! I had an issue with one of two A/C units, not the one Zone Home Solutions had installed two years ago and called to get an appointment to have a tech come out to fix. After speaking to the answering service to set that appointment, no more than 15 minutes after the OWNER himself, Jason DeSantis, calls to ask questions about what was or was not happening with my system. I thought maybe he would tell me he'd send someone next business day. No, Jason said he himself would be to my home within 20 minutes, ON A SUNDAY! Jason came in less than 20 and spent approx. 40 minutes diagnosing the problem. Which ended up being a simple power switch. I did a lot of research on A/C companies before going with Zone and now I am absolutely, positively certain I made the right choice. You cannot go wrong with these good folks!" ~ Susan D.

For example, you can control your alarm system through an app on your phone. A Smart Home takes this one step further by allowing the devices to communicate with each other without human involvement. Home Automation Systems can be as simple as a one room solution which can lower the blinds and turn on the projector in your home theater room with the touch of a single button. As a whole home application, these automation systems can help conserve energy, monitor your home security, save time and simplify your daily life. Add convenience and efficiency to your home by controlling your Heating and Air, shades, pool, hot tub, sprinklers, and lights with the touch of a single button or simply by time of day.

"We had Intuitive put a wireless stereo system outside around our pool area and boost our Wi-Fi inside our house. Thank you for making our stay at home situation a much better experience. I highly recommend Intuitive for any project you may want or need done to your home. "The knowledge and abilities of the Intuitive AV team is outstanding. Cutting the cable changes the way you watch TV. some good, some not so much. It is more difficult to know what is on when, and program information. I don't tend to surf as much as navigation can be a bit awkward. I currently use Sling and Hulu. At some point, I can see dropping one and picking up something else, as long as I can get many of the programs I want. But back to Intuitive AV. The equipment is very good, the installation went well, and I am pleased to have chose Intuitive AV for this project." ~ Kim S.

"Integrity did an excellent job on our mold remediation! We had water damage all under our kitchen sink and the hardwood flooring. They brought in their fans, dehumidifier, and air purifier and told me that it would likely take 3-5 days after the removal of affected areas to dry everything out. It ended up only taking 2 days to dry and the mold is completely gone! Very grateful for the hard work that Shane and Bryan put in for us. Our house has never smelled better! Pictures are before remediation (with countertop removed) then after!" ~ Kate H.

"Mold is a scary thing and when it came to my family's health, I wanted to make sure it was handled appropriately. True Natural Gas
Available in Atlanta Gas Light Service Areas
Year Established 2002
President and CEO Dan Hart

(404) 490-4055

Office Hours:
Monday – Friday 8:00am-5:00pm

Company Information:
True. It's not just their name. It's who they are and what they stand for. True Natural Gas is a company built on honesty, integrity and a straightforward approach to doing business.
True Rewards: Other gas companies offer low rates to new customers – and their existing customers pay higher rates to make up for it. True Natural Gas has a better plan. Their "True Rewards" loyalty program, allows loyal customers to save on each bill. It discounts the customer service charge automatically once eligibility is met, and the longer you stay, the more you save! Stay long enough and your monthly customer service charge could be as low as $3.45 a month versus $5.95. **That's a $30.00 per year savings!**

Personal Message From Dale:

I began TrustDALE.com in large part because of my frustration over the way natural gas companies were advertising. Gimmicks, specials that weren't specials and lots of confusion. I went to my computer, did the real research, and found True Natural Gas has been the month in, month out – low price leader for years. Want to quit worrying you're paying too much? Switch to True Natural Gas.

Gas is gas is gas. The price a marketer charges you is determined by the company's expenses/ overhead, profit margin and the skill of the person who buys the gas on the free and ever fluctuating open market. My analysis finds True Natural Gas sells you gas for less for three simple reasons:
1. The company intentionally and consistently maintains a lower profit margin than its high profile competitors;
2. True Natural Gas is committed to transparency in its pricing with no hidden fees; and
3. True Natural Gas President Dan Hart is perhaps the most knowledgeable person in his field when it comes to buying gas on the market when it's cheap rather than when it's not. True Natural Gas is committed to passing those savings on to you. True Natural Gas is equally committed to providing exceptional price and value to Georgia's Senior Citizens.

True Natural Gas' quality is measured by its honest approach. They won't accept you as a customer if you have a consistently poor record of paying your bills. When you submit your social security number and your credit report reveals you have a respect for paying your obligations, you will be rewarded by receiving True Natural Gas' exceptionally low monthly customer service charge.

Customer Reviews:
"This is a great company with great service, great products! Their client-oriented service is hard to find. Lee, Greg, and the electrician, are all great people, and sincerely had my interest on their minds. In order to make the lights perfect for my house, they first did a preliminary installation so I could see the real effect, and then they came to my house twice after 8pm to look at the lights, make adjustments till I was totally satisfied. I am a "picky" customer and compared several landscape lighting companies before I selected Night Vision, and I just want to say, you will not go wrong with the lighting specialists at Night Vision Outdoor Lighting!"~ Diane

"We got several prices for our complete outdoor lighting project. Night Vision was not the cheapest but they were not the most expensive either. Yet, they were the BEST. They did everything they said they could do and more. It looks amazing and they knew exactly how to make my vision come to life. The house glows and is better than I could have ever expected. They were neat, professional, efficient, friendly and I would use them for any size project. Greg and Chino are the best and the design was perfect. Great guys, great company. Call the lighting specialists at Night Vision Outdoor Lighting. You won't be disappointed."
~Jennifer L.

"We wanted something to light up our house to look really nice and also provide light for security without going overboard. We did the front and the back yard around our pool. Lee and Greg were amazing. Worked with us on pricing to keep it reasonable and it turned out exactly how we wanted! Everything is on a timer based on the sunlight and it looks awesome when it lights up. Our neighbors have all said how much they like it. I feel better about the lights on a timer when we are out of town or get home late. And we are also looking forward to having the lights out by the pool and fire pit in the back yard. It looks so nice when we are entertaining on our screened in porch! Very happy customers! Thank you Lee!" ~ Heather K.

Customer Reviews:
"Cannot say enough great things about SuperiorPRO Exterior. I have had really awful experiences with other contractors and get overly anxious in dealing with contractors in general. Superior Pro was just that superior and professional. They worked so hard, had no hidden fees, cleaned up (better than it was before they arrived), and came back (with the manager) to check for quality control and touch up. The price was spot on and the individuals working on our home where professional and friendly. I have already called for another appointment to get more work done. They have totally redeemed my impression of contractors. If you need painting interior/exterior, or any small building projects these are the guys you must call." ~ Jessica M.

"SuperiorPRO Exteriors did an outstanding job. I liked the fact that the project manager took charge and I really didn't have to do anything. He explained every issue and we worked through everything together. All in all, we got an excellent job done and I am very happy. I would recommend SuperiorPRO Exteriors to anybody!" ~ Ezra D.

Customer Reviews:
“Last week, the full exterior of our home and the interior of our garage and screened porch were painted by a crew from Highland Park. The job was fully described in a proposal drawn up by your manager/ estimator for our project. He had previously visited our home and reviewed everything on site with me.

On the morning of our scheduled start, I met your crew foreman assigned to our job. He arrived promptly, on time and went to work immediately, pressure washing all the areas to be painted. He was very courteous and pleasant, but intense and thorough in going about his work. He missed nothing, then cleaned up and left at the end of the day. The next day he returned with a full crew to begin prepping and painting. The crew was, like your foreman, courteous and pleasant but intense and thorough in going about their work. They went at it and stayed at it on a very warm day. I would describe their performance and their work as extraordinary. You should be proud of the way these men represent your company.

I should add a final note about your manager. He was a delight to deal with in person and on the phone. He responded promptly and fully to my follow-up questions. I removed the gutters and some fencing from the project. I did not request a price adjustment. When I received an emailed final invoice, your manager had included a generous deduction for these removed items. You are indeed fortunate to have this extraordinary manager, foreman and crew members on your team. Thank you.” ~ Patrick W., Atlanta

BREDA offers transferable termite re-treatment and repair warranties, lifetime renewable warranties for wildlife control and return visits at no charge for pest and mosquito clients still having issues.

Office Hours:

Company Information:
BREDA Pest Management was started out of a garage with one employee and one customer in 1975. Several decades later, BREDA has become one of the largest termite, pest and wildlife companies in the United States. BREDA has never merged with or acquired another company. The growth has simply come one customer at a time. Today, BREDA can proudly say that they have 175+ employees and 145+ vehicles on the road every day. They realized a long time ago, "if you always do what you've always done, you'll always get what you've always got." Their industry is infamous for weekend and evening appointments, but as a family first company, that didn't work with their vision. So, they became a Monday-Friday 8am-5pm company. They want their employees with their families during important family times. By supporting employees with strong family values, BREDA finds that those same values translate into their service. Because at BREDA, "Only The Sun Outshines Our Service."

Customer Reviews:

"One of the best companies I've ever done business with. They take initiative to stay on top of quarterly visits, will come out when they're in the area, will come free in between visits, and try to send the same guy out who knows your familiar with. They are always respectful polite and courteous and will take responsibility for any of their errors. Their professionalism and sense of community are a dying breed these days. Love supporting this locally owned and operated business! Great job" ~ Shyann J.

"I rate Breda a five. My appointment was for five but my guy called and informed me that he was running a little behind. He made up for it with his fun personality. He was very nice, funny, respectful and very good at his job. He took care of treatment inside and outside the house in a decent amount of time. Not only do I give Breda a 5 but also my main man Shane. Thanks again." ~ Zernetha J.

"We had a great experience with Breda. They definitely know what they're doing, and Corey and his team were wonderful to work with! They helped us with a rat issue we had, and he was available for follow up questions weeks later. Would definitely recommend them!" ~ Thomas H.

"We've worked with Zone Solutions for about a year. The firm is quick to respond, reliable, and courteous. Our Zone technician, Frank, could not be more competent or kind. He clearly explains the problems he's trying to address and patiently answers all questions. My wife and I enthusiastically recommend Frank and Zone Solutions!" ~ John M.

"I have been using Zone Pest Control for YEARS and I do mean several. I've had multiple technicians over the years and every one has been completely professional in their service. They contact you the day before service to remind you and arrive on time and complete the job quickly. Keith is my current technician and he is super friendly. Highly recommend Zone!" ~ Melinda F.

"We've been with Zone Home Solutions for the last decade and James is THE reason! He is conscientious, professional, and prompt (among other reasons). The only thing is that he thinks he is funny...and he's not, but we tolerate him! On a separate note - our home is under the termite inspection program and after a few years of inspections, some damage was found. Zone was extremely responsive with corrective action and we continue to be with them because of their overall quality and service. Looking forward to another decade of a continued relationship!" ~ Edwin P.

Hello Healthy Home. Goodbye Pests!

Customer Reviews:
"Eric, the technician, came out in the time window specified, gave a courtesy call 30 minutes in advance of his arrival, showed up on time, explained the process, and kept me informed along the way. He was nice, thorough, and eminently professional. I also really appreciated Healthy Home Termite & Pest Control giving me a quick quote up front. Super smooth transaction. I would use their services again and recommend to others. Great value." ~ Scott B.

"First, I would like to start off that I never review companies. Having been in Atlanta for 6 years - and this being one of the very few companies I am loyal to, I felt compelled to do so. I first used Healthy Home Termite and Pest Control years ago for an inspection on a home purchase but then subsequently used them for most of their services over the years on multiple properties. Patrick is patient, professional, and extremely knowledgeable. I've come to know many of the technicians over the years and each has been exemplary in their own separate ways. I've used other extermination companies before, most of them are invisible, as if you are just a number to them— they come and spray the outside in seconds without you even knowing. This has never occurred with Healthy Home. I have never been less than completely satisfied with their services, far exceeding any other pest control company I have used. As a physician, a working professional, a family man, and as a person who despises most insects, rest assured this company is the right choice for you. I wholeheartedly recommend this company for any of your termite or pest control issues. Finally, I want to sincerely thank Healthy Home for improving my quality of life here in Georgia and for consistently providing excellent and timely quality services at a great price." ~ Jesse

Customer Reviews:
"We had a groan coming from our pipes (we named her Moaning Myrtle and wanted her gone). Keith came out and while he was here, I asked him to look at a couple of other things. He adjusted the water pressure and told me the other things were fine. Myrtle is gone and no charge more than the dispatch fee. I am impressed. He could have told me I needed to replace my pressure regulator for $500 and I would have done it. He could have added work on the other issues we talked about that did not need them. I would not have known. I've heard the commercials where they claim to be honest and now, I know. They will be my first call for plumbing issues from now on." ~ Mark M.

"We were very appreciative of our certified plumber's professionalism and can-do attitude. The customer rep and dispatcher were quite helpful and accommodating when we asked them to add additional work requests for the house call. The professionally certified plumber, Jason, made every effort in investigating the situation. He performed his due diligence prior to providing his assessment and next steps for resolving our plumbing issues. He was very personable while practicing safe distance measures. He gladly offered insights on the issues we asked about and was willing to walk us through all steps in solving them before performing any services. We highly recommend Superior Plumbing. They were recommended to us by my in-laws. Now I'm confirming they are one of the best service-based experiences for something that you don't ideally want to go through on a regular basis." ~ RC L.

Customer Reviews:
"We have been very satisfied with the quality of workmanship and the appearance of our pool. Classic Custom Pools was professional and timely in their project completion targets. Communicated well throughout the project. We have recommended them to several friends and associates who were considering pool installation or major pool renovation work, both during and after our project completion." ~ Jim I.

"As one hopes, pool looks and functions beautifully! Software that illustrates the end product is best-in-class. Relationships with suppliers & contractors was extremely impressive as the progress was never delayed due to any kind of supply line challenges or labor issues. True results will come after a year or so and how they back their product, but I do not expect any challenges. Previous customers I spoke to before starting were pleased as well. Already recommended to a couple of friends...and plan to continue to do so." ~ Alex W.

"I couldn't be more pleased. The project moved at speed, and the team at Custom Classic Pools was easy to work with. A project of this nature is a team effort with the homeowner and contractor (and subs), and their coordinators did a great job keeping everyone coordinated and moving forward. I'm very happy with the end result." ~ Bob B.

I had such a great experience with Colony Roofers that I decided to write this review. My salesman, Zach, was top notch. He was very knowledgeable, responsive, and kind, never pushy. The crew did a great job as well. Great attention to detail and listened when I had questions. Colony is not the cheapest, but after the job they did at my house, I can say they are the best." ~ Nick T.

"Thomas was fabulous! They were quick to do the inspection and available for install within the timeframe we needed it done. The service and materials came with a great warranty and they were the best priced after I received several quotes. Customer Reviews:

"The best contractor we have ever worked with! Darri is absolutely AMAZING. She answered every single question we had through the process and was extremely knowledgeable. She communicated with us every day from start to finish, which is so hard to find in a contractor these days. The team that was out here onsite was also so fast, yet so meticulous with their work, which was incredible! It was such a relief finding this company. We will use them for all other future projects! Highly recommend to everyone!! ~ Mara T.

"AWR is super responsive and listens to customer concerns/questions. We have been happy with our services provided by AWR! ~ Tracy B.

"This was our first time using All Weather Renovations and we couldn't be happier with the outcome! As soon as I inquired about services, Darri and her team were out the same day to review what needed to be done and provide a quote. We were scheduled and installed the same week." ~ Jennifer R.

Certification and Affiliations:
ISA Certified Arborist

Company Information:
Richmond Tree Experts has been Atlanta's choice for tree removal, pruning, and stump removal since 1976. Their certified arborists diagnose, treat, and/or remove your problem trees for a fraction of the price you may find elsewhere. Have trees down after a storm? Richmond Tree Experts will safely remove and haul away the debris to help you protect your home and family.
Job minimum $750

Customer Reviews:
"We used Richmond Tree to remove a huge tree that fell in our backyard. Their quote came in the lowest (by far) and they did a fantastic job. The crew cleared the tree with a crane, removed all limbs and cleaned up any other debris. Honest and efficient company!" ~ Danielle M. of Atlanta

"Having a significant residential tree removal requirement and being a retired engineer, commercial pilot and independent IT consultant, I had to be absolutely convinced that the selected company could successfully and safely accomplish the task. I did extensive research and contacted eight different tree services for proposals /estimates. There were three trees in the 75' to 100'+ and three in the 50' to 75'+ brackets, all locations involving residential structures and/or power lines and on both sides of a residential street. Based on these considerations and the plans offered, I selected Richmond Tree Experts and the results were even better than expected. One additional aspect of the project was working with one Richmond crew on the removal of two of the smaller trees without crane assistance and with an entirely different Richmond crew on the removal of the remaining four trees with crane assistance. Both crews did exceptional work in protecting sensitive landscape features and concrete driveways, while emphasizing safety and professionalism throughout the three day project. Cleanup was complete and thorough. I unhesitatingly and unconditionally recommend Richmond Tree Experts and will certainly use them for any future tree removal requirements." ~ Bill V

"I had several quotes for my job and Richmond Tree was by far the most honest with their quote. They gave me a price that was comparable to other companies but with no coupons needed for a fair price. The work was done quickly and there was no mess left behind. I would definitely call them again."
~ C Miletto

Customer Reviews:
"The Top Tier crew was extremely professional and pleasant to work with from beginning to end. David quoted the scope of work thoughtfully, which included the removal of a very tall tree and raising the canopy on several cherry trees. The price was very fair for the quality and amount of work that was done. We have a very hilly side yard, and the team worked quickly on the job and removed all debris from the site - there was no trace of an enormous tree having been taken down. Would definitely recommend Top Tier!"
~ Christine F.

"Removed three trees and pruned up some high branches hanging over my house. Very fair quote and got on the job very quickly. I was at work but when I got home I could tell his crew were very professional and the work was top notch. I have a wooded lot and suspect I'll need to continue conducting business with this company to keep all my trees/limbs in check. Would highly recommend."

Customer Reviews:
"Chris and his crew were very prompt every day and organized. They all seem to enjoy what they were doing on the job. I had 8 huge trees to be removed 6 Sweet Gums and 2 Pines. My fence had to be removed in some areas to get to the trees and after the trees were removed they put my fence back up. Cleaned up the branches and trash. No attitudes everyone knew what their job was and helped their co-workers if needed. I enjoyed every one of them and I am glad I chose Black Label Tree. If you need trees removed call Black Label Tree Services and ask for Chris. I know you will have a great experience! Thank You Chris and Trustdale." ~ Brenda J.

"Chris provided an estimate for trimming multiple limbs on two trees that was very reasonable. On the day he and his crew arrived to trim the trees, I asked if they could add another tree to the job. Chris didn't hesitate and agreed since it was a simple add. My neighbor asked if they could trim one of her tree limbs while they were onsite, and Chris was happy to help. He and his crew did a great job cutting the limbs down and cleaning up afterwards. I would totally use this company again and recommend it to others." ~ Priyanka S.

"Chris and his crew were great to work with. I had about 14 trees removed and stumps grinded. They were always on time, easy to communicate with, and amazingly accurate with felling the trees. They had a house, chicken coup, and other trees to contend with and they were always spot on. I was also hugely impressed with how he worked with other small businesses to get the stumps grinded and stayed in touch with me until the job was complete. I can't say enough good things about Black Label Tree and will use them again. I highly recommend them." ~ D.P.

They were in/out of our home on a daily basis for over a week to remediate significant water damage from a kitchen leak. Every interaction we had with them was positive, they showed up on time EVERYTIME and were so respectful of our home in the process of doing what they needed to do. Guarantees and Name Brands Offered:
Integrity Restoration and Remodeling offers a lifetime labor warranty of Water Mitigation and Mold Remediation and a Lifetime Odor Free Guarantee on Fire and Smoke. They offer a 1-year warranty on repair labor and materials.

Certification and Affiliations:

Office Hours:

Company Information:
Many people think that when they have water damage or a flood, it's only their carpet that needs saving. In reality, the carpet may be the least of their worries. Today the concern is mold and bacterial growth; buildings that get wet and are not properly dried are likely to lead to mold problems and other serious contamination concerns that can threaten the health of occupants, lead to very costly remediation and repairs, or significantly reduce property values. Integrity uses the principles of extraction, air movement ,and dehumidification, along with advanced moisture detection equipment, to ensure that structures are dry and returned to a healthful state. There is no charge for an evaluation of your water damage. Call the people you know you can trust.

Customer Reviews:
"On September 9th I had a water emergency that caused catastrophic damage to my home. I called Integrity in a fit of panic and was greeted by Crystal who said she would call me back in 15 minutes, which she did. Crystal dispatched Shane and his crew who immediately started to mitigate the effects of the water damage. Lisa, one of the five people who came that night, could see the distress on my face and offered to give me a hug, which I accepted. The following Tuesday, Chandler and Danny came over to help me with a problem with my garage door, and Danny managed to get a broken key out of my front door lock. And Kevin, well your sense of humor just made me smile which I desperately needed to do. No matter who I reached out to (mostly Shane), my calls and texts were answered within a very reasonable time. I can't say enough good things about the folks at Integrity. They all made a very stressful time much easier to bear. I definitely recommend Integrity for water damage restoration! Thanks a million!" ~ Wanda N.

"All I can say is wow! Our water leak ordeal began at 5PM. I spoke with my insurance company and chose Integrity at 6:30PM. At 9pm, (Caitlyn??) from Integrity contacted me and had crews on site and demo completed in less than 24 hours. She was so kind, helpful, and really walked me through the process to ease my mind. Demo crew.... Just WOW!!! Every single member of the crew was extremely personable, professional, respectful, & courteous. The wrap up & mapping crew were phenomenal and offered very useful tips." ~ Jessica D.

Company Information: Advanced Drainage Solutions specializes in long-lasting relief of residential and community storm water and drainage issues. Their goal is to identify the source of your exterior drainage problem and correct it. Instead of treating the symptoms of drainage issues with sump pumps or interior drains, they address the root cause with a low maintenance and effective system. Their solutions reside outside your home in the form of complete underground drainage systems.

Advanced uses thick-walled PVC piping and other high-quality materials that you can depend on. They specialize in French Drains, in-ground drain boxes, downspout and gutter corrections, hardscape finishes, and land regrading.

From diagnosis to design to installation, they provide a turnkey drainage solution designed for lifetime performance. Lifetime drainage relief starts with Advanced Drainage Solutions.
The full-time technicians and staff at Advanced are some of the highest quality in the industry.

Customer Reviews:
“We used Advanced for two large drainage projects. Innovative solutions, crews are fast, nice and cleaned up very well. Both systems have worked flawlessly for 2+ years. Had the opportunity to meet the Owner who is a great guy; all their folks are very nice. We have also used them for gutter repair work and pressure washing. Can’t say enough good things; we are customers for life!” ~ Tim D

“I would HIGHLY recommend Advanced Drainage Solutions for any of your drainage problems. I called Advanced Drainage to get a quote on a bad erosion problem we were experiencing in our back yard, and right away I knew that I would use their services. Our project manager, Zach, came out and saw our issues and quickly came up with a solution to fix it. He was very knowledgeable and did an excellent job explaining the scope of the work and all of the details involved with the process. After scheduling the drainage system project, Miguel and his crew showed up and did an amazing job. They connected 6 downspouts, an HVAC condensation line, and dug two surface drains while completing the job in just one day! I am extremely impressed on how well the project turned out and cannot thank you all enough for such an amazing job fixing our erosion issue! Thank you!!” ~ Reginald B

“Advanced Drainage has been wonderful to work with!! They took the time to explain what the issues were and how they were going to address them. They were in and out within the time frame they stated and cleaned up before they left!! I highly recommend them!!” ~ Jo Anne
