Dear Homeowner,

One thing I've learned in my nearly four decades of consumer investigating is that you need a vetted and reliable network of local service providers. Practically every night that I went on air, I would tell people how someone got burned – or worse, had been intentionally cheated simple because they failed to do their homework.

In 2008, I spent the entire year creating a seven-point investigative process that would eliminate 99.9% of the mistakes that lead to bad outcomes. In this guidebook, you'll only find companies that have "findable" offices, carry liability insurance, price fairly, maintain great reputations, provide equitable contracts, and most importantly, honor my \$10,000 Make It Right Guarantee™. You see, most companies offer warranties, but guess who's in charge if something goes wrong? They are! With my \$10,000 Make It Right Guarantee™, every company in this handbook (and on my website TrustDALE.com), has agreed in writing to put me in charge of Making It Right – for you! Think about that... it takes a pretty confident company to put a true third-party in charge of outcomes.

Most homeowners who use this handbook never have a problem, and they return to use my researched recommendations again and again. The reason is simple. We all want to be part of a community where trust is a cornerstone. A community where value-driven companies sell great products for a fair profit, and value-seeking consumers buy great products at fair prices.

I invite you to call on these companies with confidence, and when you get a chance, check out our investigations on TrustDALE.com. One more thing; unlike printed and online resources, we never require your personal information. Another major reason you can TrustDALE!

President/Founder
TrustDALE

Customer Reviews: "We were very impressed by Calvin, the owner of CalTek. He was able to diagnose our Speed Queen washing machine issue after two other repair companies couldn't. It was a weird one, but he nailed it AND made a video so we could see it for ourselves. This guy is as honest as he is knowledgeable. He could have easily talked us into an expensive repair that would have MAYBE solved the problem. Instead, he leveled with us about the chances so we could make an informed decision. We've decided to replace the machine, but we will definitely call CalTek again and recommend them to others." ~Adrienne B.

"CalTek did a fantastic job for me. They worked me into their schedule, showed up on time, diagnosed the problem, and fixed my 32-yr-old Kenmore fridge. I was prepared to hear that I needed to replace Old Faithful, but CalTek saved the day! Service was top-notch, professional, and reasonably priced. I highly recommend this company!" ~Melinda V.

Customer Reviews:

"I got my cracked cement slab poly leveled off and all the driveway cracks sealed. These guys are good. Caleb and Casey are top notch. They were here early, friendly, and explained the entire process to me. I'm very pleased with their work. Thank you Atlanta basement systems" ~ John

"This crew was the best, they took their time and explained each step in the process of lifting and securing my home. They did a great job in protecting my home. They also corrected mistakes the previous company did" ~ Walter

"So thankful that in a world of chaos where there are so many people you can't trust, yet this company you can! They are honest to the core and strive for excellence in every aspect! So grateful we had Atlanta Basement Systems!!!" ~ Kim

"We had our pool area's concrete repaired and I couldn't be happier. Matthew was fantastic, he explained the process and walked me through options. The crew Caleb and Casey were excellent. The joints are clean, the level is even, and they left the area spotless. I highly recommend this team for pool deck or concrete repairs done right!" ~ Lou R.

"The techs, Coley and George were polite and respectful. I didn't have the easiest project because the sections of concrete to be fixed were primarily the 2ft border concrete around the back and side edges of the pool. An inexperienced company would have easily turned down this project because the possibility of the poly-leveling puncturing through the side wall of the pool posed a fairly significant probability. Coley and George clearly had the experience and confidence to lift and level, and they did it nearly flawlessly." ~ Christina F

Customer Reviews: "Superior Plumbing provides excellent service. When I called, the receptionist listened thoroughly to my issue. I was contacted in the morning of the service to let me know they could send someone out before the original appointment time. The plumber represented Superior Plumbing well. He knew exactly how to address my problem. He followed CDC safety guidelines, was very courteous, demonstrated a very good understanding of how to correct the problem, knowledgeable about the type of tools to use to unclog the drainage issue. I highly recommend Superior Plumbing Services." ~ L. Yvonne W.

"Had an insurance claims adjuster assess that the leak from my main floor kitchen ceiling was most likely coming from a leak in the upstairs water supply lines running under the floorboard. I engaged Superior Plumbing after watching a raving review by local consumer advocate Trust Dale. After chatting online with the Superior Plumbing, setting up dispatch, I was advised of certified plumber's eta of 45mins. Here I thought 1-2 days at minimum. The cool thing after hanging up with the tech I immediately received a text with a link to the bio, photo and current customer service rating of the plumber who would be servicing my work order. Plumber promptly arrived 45mins later. He introduced himself, quickly assessed the problem, and explained next steps including pipe leak detection costs and isolated my problem to a slow, almost undetectable leak coming from upstairs toilet down the drainpipe and eventually the ceiling below. He repaired toilet drainpipe, cleaned upstairs and downstairs in a jiffy's time. He even advised of an excessive water pressure condition at my water main in the basement! The plumber was a consummate professional throughout! Great Job Superior! You lived up to the Trust Dale high billing!!" ~ Jeffrey R.

Entry doors are available in four primary materials: wood, fiberglass, iron, and steel. Each option offers different benefits in terms of durability, insulation, maintenance, warranty coverage, and cost. All Four Seasons helps homeowners understand these differences so they can choose the right door for their home, lifestyle, and budget. Customer satisfaction is always our top priority.

Wood doors offer timeless beauty and natural character, but they do require ongoing maintenance. The amount of direct sunlight the door receives will determine how often it needs to be refinished. Wood doors also provide less insulation compared to other materials.

Steel doors are extremely durable and offer excellent security. They are well insulated and built to last for many years. While steel doesn’t replicate the look of wood as closely as fiberglass, it is available in a wide range of factory-finished colors that come with strong finish warranties.

Fiberglass doors have become a popular choice for many homeowners because they closely mimic the look of wood while offering superior insulation and minimal maintenance. They are resistant to warping and weather-related wear, making them a long-lasting and practical option.

Iron doors provide a bold, high-end appearance and are often chosen for their visual impact. They tend to be more expensive than other options and typically offer less insulation, which is an important consideration depending on the home.

Backed by more than 25 years of experience, All Four Seasons takes the time to help homeowners understand their options and choose what works best for their home. This hands-on, customer-first approach ensures every entry door upgrade delivers both lasting value and peace of mind.

Customer Reviews: "Jeremy with Precision was absolutely fabulous to work with regarding my garage door in Dunwoody, GA. I scheduled the request for service the evening before, and he came the next morning. He made an honest assessment of the issue and gave me a fair price to fix the issue. I'll definitely work with them again." ~ Kyle L.

"There's never a good time for the garage door to break! Making an appointment with Precision Garage Door Service was easy, and our service was scheduled for the same day! Our service technician, Dustin R., was prompt, worked hard, and fixed our problems quickly. He was very knowledgeable and explained everything that caused our problems and our possible options." ~ Mindy D.

"After 24 years of service, one of the springs on our garage door broke. We called Precision Garage Door Service, and they sent Allen Morgan, a service technician, out. He arrived at the designated time, looked at the problem, and gave me the choice of repairing the door with the old spring system or replacing it with a newer spring system. After discussing the warranty, I opted to replace it with the newer system. He got his tools and completed the installation in about 10 minutes, checked his work, and I'm back to having a working electric garage door. Awesome guy, very personable and professional. I highly recommend." ~ Tad B.

"I have used Precision for years at my Kennesaw home. I had recently moved and decided to use their service again, and I am so glad I did! Dustin B. was phenomenal and professional. As long as they keep up their workmanship and great work ethic, they truly have a customer for life. Thanks Precision and Dustin B.!" ~ Joanne Y.

Natural Gas

True Natural Gas

Available in Atlanta Gas

Light Service Areas

Year Established 2002

COO Leslie Marler

(470) 695-0545

Office Hours: Monday – Friday 8:00am - 5:00pm

Company Information: True. It's not just their name, it's who they are and what they stand for. True Natural Gas is a company built on honesty, integrity and a straightforward approach to doing business. True Rewards: Other gas companies offer low rates to new customers, and their existing customers pay higher rates to make up for it. True Natural Gas has a better plan. Their "True Rewards" loyalty program allows loyal customers to save on each bill. It discounts the customer service charge automatically once eligibility is met, and the longer you stay, the more you save! Stay long enough and your monthly customer service charge could be as low as \$3.45 a month versus \$5.95.

That's a \$30.00 per year savings!

Personal Message From Dale: I began TrustDALE.com in large part because of my frustration over the way natural gas companies were advertising: gimmicks, specials that weren't specials, and lots of confusion. I went to my computer, did the real research, and found True Natural Gas has been the low-price leader for years, month in and month out. Want to quit worrying you're paying too much? Switch to True Natural Gas.

Gas is gas is gas. The price you're charged is determined by the company's expenses/ overhead, profit margin, and the skill of the person who buys the gas on the free and ever fluctuating open market. My analysis finds True Natural Gas sells you gas for less for three simple reasons:

1. The company intentionally and consistently maintains a lower profit margin than its high-profile competitors
2. True Natural Gas is committed to transparency in its pricing with no hidden fees
3. True Natural Gas COO Leslie Marler is perhaps the most knowledgeable person in her field when it comes to buying gas on the market when it's cheap, rather than when it's not. True Natural Gas is committed to passing those savings on to you. They are equally committed to providing exceptional price and value to Georgia's Senior Citizens.

True Natural Gas' quality is measured by its honest approach. They won't accept you as a customer if you have a consistently poor record of paying your bills. When you submit your social security number and your credit report reveals you have a respect for paying your obligations, you will be rewarded by receiving True Natural Gas' exceptionally low monthly customer service charge.

We could not be happier with our new outdoor living space, and we without a doubt made the right decision choosing Ben Hill Renovations to complete the project for us; not only did they complete exceptional work, but they are reliable and trustworthy; all the things we hoped for in choosing a company to complete this project!” ~ Megan B.

“We had Ben Hill Renovations build us a covered, screened in deck. We decided to do the sun exposed area in timber tech, and the covered area in wood to keep the cost down. From start to finish they were wonderful to work with. He adjusted the water pressure and told me the other things were fine. Myrtle is gone and no charge more than the dispatch fee. I am impressed. He could have told me I needed to replace my pressure regulator for \$500 and I would have done it. He could have added work on the other issues we talked about that did not need them. I would not have known. I've heard the commercials where they claim to be honest and now, I know. They will be my first call for plumbing issues from now on." ~ Mark M.

"We were very appreciative of our certified plumber's professionalism and can-do attitude. The customer rep and dispatcher were quite helpful and accommodating when we asked them to add additional work requests for the house call. The professionally certified plumber, Jason, made every effort in investigating the situation. He performed his due diligence prior to providing his assessment and next steps for resolving our plumbing issues. He was very personable while practicing safe distance measures. He gladly offered insights on the issues we asked about and was willing to walk us through all steps in solving them before performing any services. We highly recommend Superior Plumbing. They were recommended to us by my in-laws. Now I'm confirming they are one of the best service-based experiences for something that you don't ideally want to go through on a regular basis." ~ RC L.

Water Restoration

**Integrity Restoration and Remodeling, LLC.**

Servicing All Metro Atlanta

Year Established 2008

Owner Jonathan Smith

(770) 872-4334

Guarantees and Name Brands Offered: Integrity offers a one-year warranty on repairs, labor, and materials. Water Mitigation and Mold Remediation services include a lifetime labor warranty, and Fire and Smoke Restoration comes with a lifetime odor-free guarantee.

Certification and Affiliations: BBB Accredited with A+ rating; Licensed General Contractor; Institute of Inspection Cleaning and Restoration Certification (IICRC)

Office Hours: Open 24 hours a day, 7 days a week for any emergency.

Company Information: When water damage or flooding occurs, many homeowners assume the carpet is the primary concern. In reality, surface materials are often the least of the issues. The greater risk comes from moisture left behind, which can lead to mold growth and bacterial contamination. Buildings that are not properly dried are far more likely to develop these problems, potentially affecting occupant health, driving up remediation and repair costs, and reducing property value.

Integrity Restoration and Remodeling uses proven methods including water extraction, controlled air movement, and dehumidification, supported by advanced moisture detection equipment, to ensure structures are thoroughly dried and restored to a safe condition. Integrity also offers evaluations of water damage at no cost. When the unexpected happens, call the professionals you can trust.

Customer Reviews: “On September 9th I had a water emergency that caused catastrophic damage to my home. I called Integrity in a fit of panic and was greeted by Crystal who said she would call me back in 15 minutes, which she did. Crystal dispatched Shane and his crew who immediately started to mitigate the effects of the water damage. Lisa, one of the five people who came that night, could see the distress on my face and offered to give me a hug, which I accepted. The following Tuesday, Chandler and Danny came over to help me with a problem with my garage door, and Danny managed to get a broken key out of my front door lock. And Kevin, well your sense of humor just made me smile which I desperately needed to do. No matter who I reached out to (mostly Shane), my calls and texts were answered within a very reasonable time. I can’t say enough good things about the folks at Integrity. They all made a very stressful time much easier to bear. I definitely recommend Integrity for water damage restoration! Thanks a million!” ~ Wanda N.

“All I can say is wow! Our water leak ordeal began at 5PM. I spoke with my insurance company and chose Integrity at 6:30PM. At 9pm, (Caitlyn??) from Integrity contacted me and had crews on site and demo completed in less than 24 hours. She was so kind, helpful, and really walked me through the process to ease my mind. Demo crew.... Just WOW!!! Every single member of the crew was extremely personable, professional, respectful, & courteous. The wrap up & mapping crew were phenomenal and offered very useful tips.” ~ Jessica D.

“I cannot say enough good things about Apex! Don & Thomas were extraordinarily prompt in coming out to our home (less than 24 hours); provided multiple solutions for me to choose from, and ultimately sought to save my family and I money. There were no gimmicks - they listened and sought to implement a solution that would fit our budget. This was by far the best service experience we’ve had, and it could not have come at a better time; dealing with water and flood issues is frustrating enough. The level of service sets Apex apart from other ‘disaster/water management’ companies in Atlanta. I'm very satisfied with the quality of their workmanship and highly recommend them for anyone in need of reliable basement waterproofing solutions." ~ Sarah

"Top-notch Service! Professional, attentive, and truly focused on giving homeowners a stress-free, personalized experience" ~ Parker

"They are the best contractors I've ever worked with... and there have been many. They did what they said they would do, in the time quoted, to perfection. They solved a major headache that I had already another contractor thousands to address and respected the cleanliness of the space while doing it. My work was completed many months ago and I waited through several heavy rains, including today, before writing a review. I have recommended ABS to several homeowners, without hesitation. If only other contractors would be as honest, forthcoming, and thorough." ~ Green

"We had a great experience with Atlanta Basement Systems, who just completed our installation last week. Before this, every time it would rain hard I knew I would have to be in our basement wet vacuuming and cleaning up. Was such a hassle for a new home we just purchased and this wasn't disclosed. Now I'm almost looking forward to when it rains, such a load off. If you are considering any of this type of service, I would recommend having this company come out to give an estimate!" ~ Jesse

“I would HIGHLY recommend Advanced Drainage Solutions for any of your drainage problems. I called to get a quote on a bad erosion problem we were experiencing in our backyard, and right away I knew that I would use their services. Project manager, Zach, came out and saw the issues and quickly came up with a solution. He was very knowledgeable and did an excellent job explaining the scope of the work. After scheduling the drainage system project, Miguel and his crew showed up and did an amazing job. They connected 6 downspouts, an HVAC condensation line, and dug two surface drains while completing the job in just one day! I am extremely impressed by how well the project turned out and cannot thank you all enough for such an amazing job fixing our erosion issue! Thank you!!” ~ Reginald B
